Presentation

Milan – Italy – 4th class, section A

Hello! We are 21 students of 4th class, section A.

We like to work together.

This is our school: Scuola Primaria E. Fermi (E. Fermi Primary School), in MILAN, via Carnia 32.

We like to play in the garden.

We have a library and a gym.

We like PE!

Milan – Italy – 4th class, section B

Milazzo, Italy

Hello! We are 17 students of 4th class, section A. We live in Milazzo, Italy. This is our school.

ABOUT US

Hi! I'm Ahmet Arif. I'm 12 years old. I study at Un College. I love all my lessons. There are six students in my class. I'm honest and sociable. My hobby is playing football. I do sport and collect comics in my free time.

Hi! I'm Bora. I'm eleven. I'm kind, helpful and patient. I'm in class 6A. I have English, Turkish, math, P.E., science, social studies and music classes. I'm a student at Un College. My hobbies are playing football, playing tennis, reading a book and going shopping. I hang out with my friends in my free time.

Hi! My name is Ege. I'm 11 years old. I study at Un Secondary School. I'm at the 6th grade and there are 6 boys in my class. I'm patient. I'm good at science and P.E. I play football in my free time. My hobbies are playing computer games and playing football. I like playing football with my friends.

Hi! I'm Murat. I'm eleven years old. I study at Un Schools. There are six students in my class. I'm a little bit kind. I'm good at science, P.E, math and social studies. My favourite hobby is playing football. I play football and computer games in my free time.

Hi! I'm Gokhan. I'm twelve and I live in Corlu. I study at Un College. I have English, Religion, Turkish, Math, Science and Social Studies classes. I love math and science. I think I'm bad at Turkish. I have got 8 lessons and 7 break time in a school day. These breaks are short, longer and lunch time. The shorter ones consist of 10 minutes. The longer ones last half an hour and in the lunch break we are free for one hour. I love my school and my friends. My favourite computer game is pess. This game's aim is scoring a goal. My best friend's name is Batuhan. He loves hanging out with his friends. He has got blond hair and brown eyes. I want to be a doctor because I like medicine. I want to find a cure of cancer. My mum is a scientist and my father is an engineer.

Hello! I'm Ugur. I'm twelve years old and I go to Un College. My favourite activity is football. I hate vegetables but I love fruit. My favourite subject is P.E. I don't like playing basketball. I'm crazy about playing video games. There are four people in my family. I'm good at art and I think I'm bad at maths. I like going to the cinema.

In the garden

Milan- Italy – Class 4th , section A

Yesterday (31/10/2019) we studied something about plants.
First of all, in the classroom, we have learned how we can grow things.

Then, we went in our vegetable garden to practise.

Growing Vegetables

You need: flower pots, soil, seeds, water.

- 1) Fill the pot with soil.
- 2) Put the seeds in the soil.

3) Cover the seeds with soil.

4) Water it.

We have observed plants of lettuce.

We have put lettuce in the soil.

A very interesting
experience!

Turkey, A

PLANTING SEEDS

- 1-First of all ,we prepare the equipment,
- 2-Next we put the soil into the pot ,
- 3-Then we put the plant the middle of pot,
- 4-After that,we add soil around the plant,
- 5-Then we pour water of life into the plant
- 6-Finally we press the soil.

Class 4th section B – E. Fermi Primary School – MILAN - Italy

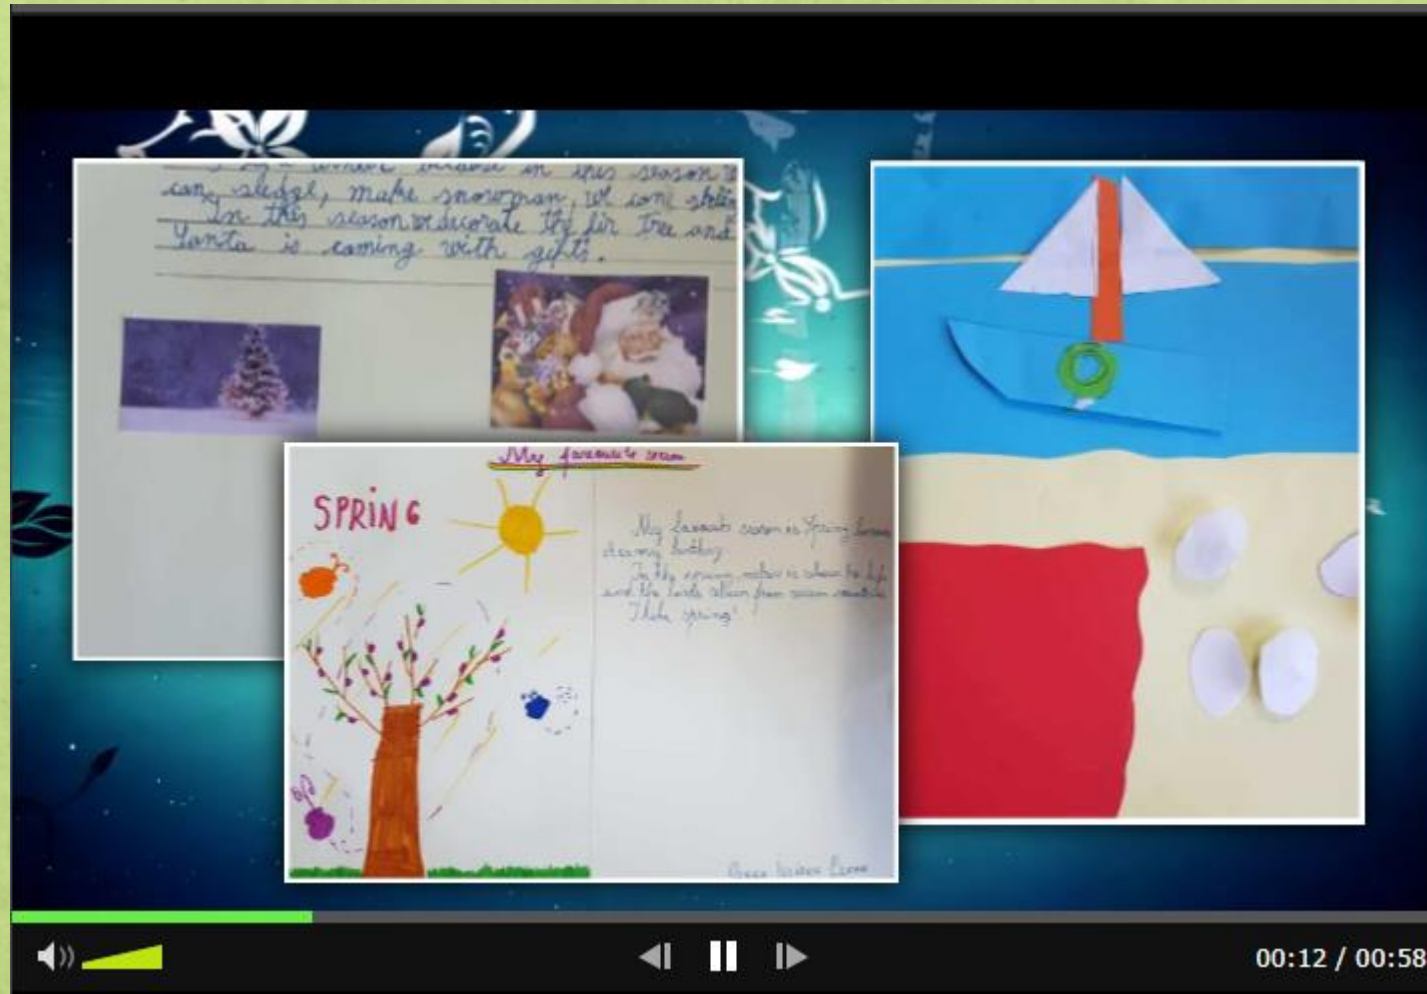

Students and parents from grade 3 A, School Elena Doamna, Tecuc, ROMANIA celebrated AUTUMN.

Students from Tecuci, ROMANIA, have celebrated autumn with their parents. One part of the activity was to work using materials found in nature, in autumn. Children and parents worked to make wonderful things in order to decorate our classroom and to spend time together.

Today we read Jack and the beanstalk and for our Science lesson we used beans to study how plants grow. As we want to recycle, we used plastic bottles for our seeds. What would happen? We will let you know. Our seeds will have good conditions: warm, water, sun. We will note our observations in a diary and we will take photos.

Save energy

Milan- Italy – Class 4th , section A
